Carlyle F. Gronning, Chairman  
Safety Division  
The Industrial Commission of Utah  
350 East 500 South  
Salt Lake City, Utah 84111

Dear Mr. Gronning:

We wish to inform you of our intent to open up and operate a new open-face limestone quarry located approximately four miles North-West of the town of Grantsville, Tooele County, Utah. The pit is on the West slope of a small prominence locally known as Little Mountain, and is on fee land owned by Portland Cement Co. of Utah, and may be reached by leaving U.S. Highway 40 westbound on the public road serving the Utah Bunker Hill and Monte Carlo mines. (Location: NE  $\frac{1}{4}$  Sec. 20, Township 25, Range 6W, S.L.B. & M.)

The operation consists of down-hole drilling, blasting, dozing, crushing, screening, and stockpiling. The product is minus  $1\frac{1}{2}$  inch limestone and will be trucked to our cement plant located at 615 West 8th South, Salt Lake City, Utah.

Presently, our operations are largely exploratory. If successful we would remove about 50,000 tons of limestone per year from this site.

If additional information is desired please feel free to contact us.

Sincerely,

PORTLAND CEMENT CO. OF UTAH

Edwin S. Gallacher  
President
